WORK EXPERIENCE

Expense Management

📅 08/2025 – 12/2025

🌐 <https://github.com/TienTrn05/ProjectFinalMobile->

Member | Flutter, Supabase, Gemini API

- **Income & Expense Tracking:** Developed features for recording income and expenses, managing budgets, and categorizing transactions.
- **Supabase Integration:** Implemented user authentication, data storage, and real-time database updates using Supabase.
- **Financial Data Visualization:** Built interactive charts to visualize spending patterns, transaction categories, and budget insights.
- **AI Financial Assistant:** Integrated Gemini API to analyze spending behavior and provide personalized budgeting suggestions.
- **UI/UX Design:** Designed intuitive application interfaces and user flows using Figma.
- **Team Collaboration:** Collaborated with team members and managed development tasks using Trello.

Teleprompter

📅 01/2026 – 04/2026

🌐 <https://teleprompt-fau.web.app/>

Mobile Developer | Flutter, Dart, BLoC/Cubit, FFmpeg, REST API

- **Teleprompter & Script Management:** Developed script organization and teleprompter features including auto-scroll, speed control, text formatting, mirroring, and timer settings.
- **Camera & Speech Integration:** Integrated camera, microphone, Picture-in-Picture, and speech-to-text for video recording and automatic subtitle generation.
- **Video Editing:** Built video editing features including trimming, resizing, watermarking, intro/outro insertion, and subtitle styling using FFmpeg.
- **AI Script Assistant:** Integrated AI services for script generation, summarization, expansion, and rewriting.
- **Application State & Device Services:** Managed application state using BLoC/Cubit, runtime permissions, local storage, and media gallery access.

SKILLS

Languages: HTML, CSS, JavaScript, Dart, C/C++, C#, Java

Frameworks & Libraries: React.js, Express.js, ASP.NET, Tailwind CSS

Databases: MySQL, PostgreSQL, SQL sever

APIs & Tools: RESTful API, Postman, Git, GitHub, Trello
